APRIL VACATION CARE

Our Before and After School Care Centre's recent vacation care program was a huge success, thanks to the combination of engaging incursions and excursions that catered to children of different ages and interests. The children participated in a hands-on learning experience from Bricks 4 Kids. This educational incursion combined engineering, architecture, and technology with LEGO® bricks, and provided children with an opportunity to build their own models, solve challenges, and learn about different themes and concepts.

We had an excursion to Taronga Zoo, where they had the chance to see and learn about a variety of animals from around the world. They participated in educational talks and shows, and even had the opportunity to feed and interact with some of the animals.

Inflatable World was a huge success, where children had a blast jumping and playing on a range of inflatable structures. This activity helped them burn off some energy while promoting gross motor skills and coordination.

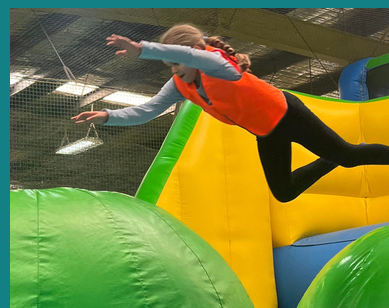

Another excursion we went on was to Archie Brothers, an indoor amusement park that offers a range of activities, including bowling, laser tag, arcade games, and mini-golf.

Children had a great time exploring the different games and attractions and competing against each other.

Finally, we had an exciting incursion from Tree Tops, a high ropes adventure course that challenged children to climb, swing, and zip-line through the trees. This activity helped them build confidence, resilience, and teamwork skills.

Along with these exciting incursions and excursions, we also incorporated a range of educational and creative activities into the program, such as arts and crafts, cooking, and science experiments. We made sure to provide healthy snacks and meals throughout the day to keep children fueled and energized.

Overall, the program was a hit with children and parents alike, and we are proud to have provided a high-quality and engaging program for children during their time off from school. We look forward to offering similar programs in the future.

UPDATES

WE ARE A NUT FREE ENVIRONMENT!

At Kpsoosh, we take the safety and wellbeing of all our children very seriously. As such, we are proud to be a nut-free environment. This means that we do not allow any nuts or nut products on our premises, including in children's lunchboxes or snacks. By being nut-free, we can ensure that children with nut allergies can attend our centre without fear of exposure to allergens. We ask all parents and carers to support us in maintaining a nut-free environment by avoiding packing nut-based foods in their children's meals and snacks. Together, we can create a safe and inclusive environment for all our children.

WE WANT YOUR FEEDBACK!

At Kpsoosh, we are always striving to improve our services and provide the best possible experience for our children and families. We would love to hear your feedback on our recent April vacation care program.

Please fill out the survey here:

And any suggestions you may have for the upcoming July vacation care.

Please fill out the survey here:

<https://www.surveymonkey.com/r/CBVKPT7>

Your feedback is invaluable to us, as it helps us to continually improve and refine our programs to meet the needs and interests of our children and families. We appreciate any feedback you can provide, and we look forward to continuing to provide fun and engaging programs for your

children.

KPSOOSH CLUBS

At Kpsoosh, we offer a range of exciting and educational clubs that cater to different interests and age groups. Our clubs are designed to provide children with fun and engaging activities that help them develop new skills, build friendships, and explore their passions. Some of the clubs we offer include Science Club, where children can conduct experiments and explore the wonders of the natural world, Lego Club, where children can let their creativity run wild and build amazing structures with Lego bricks, Junior Sports Club, where children can learn new sports skills and develop their physical abilities, Senior Sports Club (Touch Footy), where children can engage in friendly competition and develop teamwork and sportsmanship, Culture Cooking Club, where children can learn about different cultures and cuisines from around the world and develop their culinary skills, and Coding Club, where children can learn the basics of computer programming and develop their problem-solving and logic skills. We are proud to offer such a diverse range of clubs and activities and are always looking for new and exciting ways to engage and inspire our children.

MARTIAL ARTS

Enrolling your children in martial arts with Sensei Carmen is an excellent way to develop life skills like discipline, focus, and self-confidence. The junior and senior class day has changed to Mondays, making it easier for busy families to attend. Sensei Carmen offers a fun and challenging learning environment for children of all ages and abilities, and classes provide an opportunity to learn new skills, make friends, and reach their full potential. Contact us at admin@kpsoosh.com.au to book in and experience the benefits of martial arts
